Economic Integration And The Location

Economic integration, process in which two or more states in a broadly defined geographic area reduce a range of trade barriers to advance or protect a set of economic goals.. The level of integration involved in an economic regionalist project can vary enormously from loose association to a sophisticated, deeply integrated, transnationalized economic space.

Economic integration | Britannica

Economic integration has a profound effect on industry location, as shown by the experiences of North America and Europe. In East Asia Cambodia, Laos, Myanmar, and Vietnam (CLMV) joined ASEAN and initiated cross-border infrastructure projects under the GMS scheme in the 1990s.
