### Chad Hansen, Language and Logic in Ancient China - PhilPapers

The relationship of language to logic concerns us because we wish to know whether and how language can relate truth, which is properly the domain of logic. Logical propositions can be true or false, so the linguistic representations of these propositions, which we also call "propositions," though in an equivocal sense, have an expressive relationship to truth and falsity.

### Logic and Language: Part I

Part of the reason for this oversight in decades past was due to the loss or neglect of ancient texts critical to the understanding of early Chinese ideas on language and logic, particularly the writings of the later Mohists, who developed a sophisticated school of philosophical and scientific thought in the third century BCE, but whose writings were rediscovered by philologists only in the ...

### Language And Logic In Ancient China

Step Logic vs. Block Logic. While the Modern Western person thinks and arranges events chronologically (Step Logic), the Ancient Hebrews thought and arranged events according to action and purpose (Block Logic). Let me demonstrate with the following paragraph from a western step logic perspective. "I got up and ate breakfast and read the newspaper.

Logic (from Greek: λογική, logikḗ, 'possessed of reason, intellectual, dialectical, argumentative') is the systematic study of valid rules of inference, i.e. the relations that lead to the acceptance of one proposition (the conclusion) on the basis of a set of other propositions (). More broadly, logic is the analysis and appraisal of arguments.

The late Mario Mignucci was one of the most authoritative, original, and influential scholars in the area of ancient philosophy, especially ancient logic. Collected here for the first time are sixteen of his most important essays on Ancient Logic, Language, and Metaphysics. These essays show a perceptive historian and a skillful logician philosophically engaged with issues that are still at ...
