The Alps : NPR

The early travelers to the Alps were greatly inspired by the pristine beauty of what they saw, and from their inspiration sprang the modern popularity of the Alpine region. With popularity, however, came growth; and the impact of so many people caused a steady degradation of the Alpine environment beginning in the mid-20th century.

Alps - Human impact on the Alpine environment | Britannica

Thus, the Alps are a summer and winter playground for millions of European urban dwellers and annually attract tourists from around the world. Because of this enormous human impact on a fragile physical and ecological environment, the Alps are likely the most threatened mountain system in the world. Load Next Page.
