Black Death - Causes, Symptoms & Impact - HISTORY

The Black Death (also known as the Pestilence, the Great Mortality, or the Plague) was the deadliest pandemic recorded in human history. The Black Death resulted in the deaths of up to 75–200 million people in Eurasia and North Africa, peaking in Europe from 1347 to 1351. Plague, the disease caused by the bacterium *Yersinia pestis*, was the cause; The *Y. pestis* infection most commonly results ...

Black Death - Wikipedia

The Black Death was a plague pandemic which devastated Europe from 1347 to 1352 CE, killing an estimated 25-30 million people. The disease, caused by a bacillus bacteria and carried by fleas on rodents, originated in central Asia and was taken from there to the Crimea by Mongol warriors and traders. The plague entered Europe via Italy, carried by rats on Genoese trading ships sailing from the ...

History of Black Death

Black Death, pandemic that ravaged Europe between 1347 and 1351, taking a proportionately greater toll of life than any other known epidemic or war up to that time. The Black Death is widely thought to have been the result of plague, caused by infection with the bacterium *Yersinia pestis*.

Black Death | Definition, Cause, Symptoms, Effects, Death ...

The outbreak of the Black Death in the Prussian town of Elbing (today the Polish town of Elblag) on August 24th, 1349, was a new milestone in the history of the Black Death. A ship that left Oslo at the beginning of June would probably sail through the Sound around June 20th and reach Elbing in the second half of July, in time to unleash an epidemic outbreak around August 24th.

The Black Death: The Greatest Catastrophe Ever | History Today

The brutality of the Black Death was matched only by the speed of its rampage across medieval Europe. One third of the English population was wiped out. The feudal system - brought into existence nearly 300 years earlier under William I - was damaged, and the unquestioned belief in the supremacy of the Catholic Church was destroyed.

The Black Death - Historic UK

Read Book The Black Death History

The Black Death looms large in the modern imagination, as it did in the minds of late medieval people. It is a spectre, or shadow, reminding everyone of their mortality, and the briefness of life. The reactions it provoked showed the best, and worst, of the human condition, and its long-term effects contributed to sweeping changes in society.
