### The Coming Collapse Of China

The Coming Collapse of China is a book by Gordon G. Chang, published in 2001, in which he argues that the Communist Party of China is the root cause of many of the People's Republic of China's problems and will cause its collapse in the near future. He claimed that the hidden nonperforming loans of the "Big Four" Chinese State banks would likely bring down China's financial system and its ...

In spite of the truce in the trade war following the interim deal that Trump struck with Xi in January 2020, U.S.-Chinese economic decoupling is almost certain to continue in the coming years regardless of who is in the White House, because reducing the United States' economic dependence on China and constraining the growth of China's power are now bipartisan aims.

### China's Coming Upheaval | Foreign Affairs

I think America may collapse before China does. China uses public banking, and public banking is better for the whole country, economically and socially, than private banking, which is only good for mostly the top 1% or maybe a trickle down to the top 10-20%. This whole thing about going after China is interesting.
