The Economics Book

The Economics Book looks at different economic theories and economists, with a bit of world history thrown in. As a beginner in Economics, this book wasn't exactly what I was hoping for. It was kind of disorganized and didn't explain some concepts very well (they weren't as "simply explained" as the title claims).

Economics | LSE Review of Books

Lesson 1: The prevailing economic market model has 4 major flaws. Among the thousands of economic diagrams, which humans have developed over centuries, one has really cemented itself into not just textbooks, but the backs of our brains: the circular flow of labor, capital, goods and services. It usually pictures two parties, firms and households, who exchange work for wages, rent, and dividends.
